

Platform Devices Shaily offers a comprehensive range of technologies, solutions and services for patient-centric and cost effective self-medication injection systems

Mira wearable auto-injector

Shaily Healthcare

Shaily Engineering Plastics Ltd. is India's leading precision plastics manufacturing company and specialises in the manufacture of complex components and assemblies using scientific injection molding of high-performance engineering polymers to stringent quality and tight tolerances.

Shaily Healthcare and Shaily Innovations UK both divisions of Shaily Engineering Plastics specialize in design, development, and manufacture of complex drug delivery devices such as pen injectors, auto-injectors, inhalers and pumps. We support our customers using our expertise in comprehensive design and engineering, prototyping, tool manufacturing, manufacturing of components and assemblies and concluding with design verification and validation. All our processes from design to industrialization are governed by our comprehensive QMS that incorporates comprehensive risk management.

Shaily is certified to ISO 13485 MDSAP and 15378, compliant with FDA 21 CFR 820 and supports its customers with DMF, NDA, ANDA and 510k filings.

Specifications

Method of activation	Start button
Method of operation	Two step, Patch and Inject
Injection time available	Customizable, from 1 minute to 2 hours
Paused injection control	Yes
Single use, disposable auto-injector	Yes
Visual and audible feedback	Yes
Max dose, in configurations	1.5 - 3.0ml; 3.0 - 5.0ml ; 5.0 - 15.0ml
Subcutaneous or Intramuscular injection	Configurable for either

Image shows 3.0 - 5.0 ml device
